Country: East Germany

Type of Information: Military/land, air, and naval

Subject: Russian military camp at Warnemunde

Attachments: 1 sketch of a map of Warnemunde.  
1 sketch of the camp

1. Location:

3 km. north-east from the Warnow river, lying to the left and right of the road to Rostocker Heide.  
Can be reached from Warnemunde by means of a ferry-boat (See map)

2. Description of the camp

a) to the left of the road at the edge of the dune were observed 2 steel doors, presumably giving entrance to the bunkers built in the dune. The doors are set in a concrete frame. In front of the doors a Russian soldier armed with a rifle.

Approximately 20 meters beyond the second door a mast of steel construction 29 meters high. On top an antenna as is shown in the sketch. At the foot of this pole stood something set up, surrounded by a covering painted in camouflage colors.

It can not be made out from the shape what lies under the covering. The covering, resembling fine jute, is approximately 10 x 5 x 5 meters. Close by stood on duty two Russian soldiers, armed with a rifle. On the site is a sign saying in German "Strictly forbidden to take photographs".

b) to the right of the road just beyond the abovementioned mast, three wooden barracks in which are Russian soldiers as well as women dressed in civilian clothes.

At this spot there is a thick forest.

Also to the right of the road, approximately 100 meters from the barracks along the road is a three meter high stone wall in the middle of which is an entrance gate. In front of the gate a Russian soldier armed with a gun.

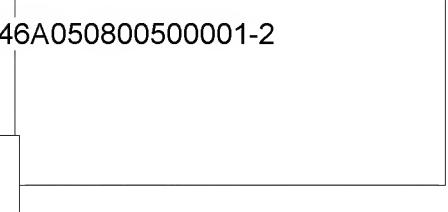

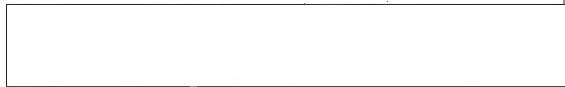

By the gate a sign on which is written in Russian, German, and English "Strictly forbidden to take photographs".

Above the wall [redacted] different chimneys both round and square, 50X1-HUM made of stone as well as iron. These were approximately 5 meters high.

[redacted] various stone barracks as well 50X1-HUM as about a dozen tanks standing covered with canvas, judging from the shape.
